MONDAY, — — — — — MAY 28, 1855.

24th The editor of the Louisville Journal is laboring to show that the Know-Nothings North are not Abolitionists. He uses to prove that the Whigs of the North were not, in the same way, until the evidence became so overwhelming that the Southern Whigs deserted the party, and left it powerless. It is not worth while to spend time now to prove that the Whig North became Freeholders almost en masse, leaving only a few Silver Grays, not enough to make units, who conceded a little moderation.

All this time the anti-slavery men who belonged to liberty party or Free Soil organization denounced the Whigs as unreliable on the subject: not sufficiently pledged to anti-slavery and nothing else. Horace Greeley, Thurlow Weed, and W. H. Seward thought otherwise, however. They thought the Whig party the best anti-slavery party extant, and denounced the Freeholders as disorganized. Even the editor of the Journal used to denounce these Freeholders as dishonest for not voting for Whig candidates, and thus preventing the annexation of Texas, which they could have done.

The Freeholders proper do n't want their one idea interfered with. They have the lead and intend to keep it, and they are jealous of the two ideas of the new party. They want their idea first, and they are afraid one of the new ideas may get ahead: hence there is great jealousy down East, and Sam's forces will scatter. The Abolitionists have the members and the power. That has been shown in Massachusetts. The new order is powerless without them, and they know it. They need the Know-Nothings, and the Know-Nothing needs them; but after acting together and filling Congress with agitators and anti-slavery men, they are getting very suspicious of each other, and will separate.

This will leave Sam nowhere at all in the free States. Without his Abolition ally he can't muster a corporal's guard. The Freeholders may give the Democratic party a hard fight in some of the free States, but Sam alone can't make a show. He must unite with the Abolitionists or lose the spoils—and that will never do. The Journal's extracts show that Sam has no choice. He must not set up for himself in the free States, or abolition will bring him down. On Tuesday, the 23d inst; the following particulars were:

A cloud of a peculiar shape was first observed approaching from the Northwest, and terminating in a funnel-shaped column, the apex of which was at the intersections of Green and Wentzel Streets, and West, Hancock and Chestnut Streets; also, to the south, down the slope of the hill.

INTERESTING TO HORTICULTURISTS.—Powdered charcoal, placed around rose-bushes, or other flowers, has the effect of adding greatly to the richness of the colors.

What three authors would you name in commenting on an extensive conflagration? Dickens, Howitt, Burns.

The Southern Side.

The Know-Nothings are routed in Virginia, totally. The Democrats have swept the Statehood; Wise's majority will be large. So far as we know, from the Democrats have elected every member of Congress. We hope the organs will give due notice when Sam's funeral will come off. It is ill worth while to try to keep him above ground August. He will become very offensive this hot weather. You need not ask how large Wise's majority will be. It will not be worth while to count it all.

25th The common opinion now is, that the statements of Know-Nothing organs will not do to let on where are the seventy or eighty thousand Know-Nothings of Virginia?

THANKS to Wm. Preston, agent of the Floating Palace, for a copy of yesterday's Cincinnati Enterprise.

137 It is surprising that persons will continue to drop unpaid letters into the Post Office, but they do it every day.

The late Wm. B. Clarke, of Hagerstown, among his various charities, left \$6,000 for the use of his negro boy, Gato.

When you make a bargain, let it be a clean one. Never trust to the expression, "We shall no quarrel about it."

A stranger, named John Lownesian, a Pole, by trade, lately arrived in Cincinnati, from St. Louis, died of cholera on Thursday.

The New York Picayune, of the 26th inst., says that the quarantine regulations for that port will go into effect on the 1st of June.

137 Should any carrier fail to deliver the Democrat promptly, word left at the office will remedy the neglect.

The Board of Directors, in the Jeffersonville Railroad Company, held a meeting on Saturday but did not elect a President of the Company, for the ensuing year.

137 Four young men were fined \$20 each, and costs, in New Bedford, Mass., for standing on the corner of a street. Wonder if they won't soon fine a fellow if he don't keep going!

Miss Harriet C. Woodward, daughter of Jas. Woodward, Esq., of Portland, Me., has been elected Professor of Mathematics in the Female College at Elmira, N. Y.

They have in Cincinnati a negro militia company called the Attack Blues. The other companies will not march with them. Beneficial, consistent abolitionists.

We publish some account of Saturday's horrid entertainment exhibitions upon our first page this morning. We are glad to notice the spirit vivified on these occasions.

Our New Albany and Jeffersonville friends can be supplied with the Democrat before sunrise every day. PAPER TEN CENT PER WEEK, payable to the Carriers.

The Court of Claims—it is said if the new Court of Claims were to dispose of 200 cases per day it would require ten years to get through those now ready for its reception.

The Agricultural Bureau, which has been attached to the Patent-office at Washington, is to be discontinued, it is stated, in a week or two, the appropriation for it being exhausted.

Geo. A. Croft, successor to Lay & Brothers, General Advertising Agent, office 73 South Fourth Street, above Walnut, Philadelphia, is an advertising agent for the Democrat.

137 A quantity of potato seed has lately been presented by the agricultural branch of the Patent office, from Germany, with a view of experimenting in the United States with different varieties of this so important agricultural staple.

The attack a few nights ago on the porter of the Louisville Hotel was not made by any one of the city watchmen.—Evening Bulletin, 26th.

If not a member of the police, yet perchance of the police. Such is our information.

BROWNS.—A negro boy, about 12 years of age belonging to Mr. F. Peniston, of Carrollton, Ky., while fishing in the Kentucky river on Thursday evening last, fell into the water and drowned. His body was recovered on Friday morning.

MOSQUITO HALL.—To-night, Wood & Carter's Minstrels give their first concert, at Mozart Hall.—See the bill in our advertising columns, and go if you wish to enjoy such music as has time and again delighted the people of New York.

137 There was a fire yesterday morning about 1 o'clock, on the other side of Beargrass Creek, near the ship yards, which destroyed a two story brick grocery, occupied by Mr. Clark. Damage not ascertained.

Bishop Timon has given notice of the withdrawal of the interdict against the St. Louis Roman Catholic Church, of Buffalo, N. Y., and the ban of excommunication from the trustees. A pastor has been appointed, and services will be resumed.

Poisonous Dogs.—This process of disposing of the creatures is coming quite into vogue. Some of our subscribers complain that their dogs are poisoned while tied up in the yard. Even the hounds are not allowed to go free. This is clearly wrong.

BALL AT THE WOODLAND GARDENS.—Dr. Sterder gives a Whitsunday Ball at these pleasant gardens this afternoon and night. It will, no doubt, be merry and pleasant. An omnibus will run from the corner of Third and Market streets, every half hour.

The Henderson Reporter of the 24th inst. gives some particulars of a difficulty that occurred at Uniontown, Ky., between W. J. Kidd and a man by the name of Emerson. They engaged in a fall-out, and when separated, Kidd shot Emerson—supposed not fatal. Kidd was held to bail.

GOOD OLD AGE.—We find in the Memphis Eagle and Enquirer a statement, that M. E. Carney, of Coffey County, Tenn., was one hundred and one years old on the 4th inst. Her general health is still good, and her mental faculties unimpaired. A good old age.

HEAVY DAMAGES.—A young man by the name of Dent, was assassinated at the late term of the St. Francis (Mo.) Circuit Court, for damages for the execution of the daughter of Thomas Gridier. The trial excited great interest, and resulted in a verdict of \$2,000 for plaintiff.

The citizens of Johnson County, Mo., held a meeting last week and resolved to eject all free negroes by force who are to be found in that State after August next, and instructed their legislative members to move a bill to prevent any slave being emancipated in that country.

VALUABLE CIGAR.—Captain Buelow, of the steamer American, lately destroyed by fire, when ashore at Pittsburgh, Pa., stepped into a store to get a cigar. There he met an insurance agent to whom he had previously proposed insuring the cargo which was done, and on same trip the boat was burnt. That cigar cost the insurance company about \$60,000.

Brinley's Plow.

Mr. Brinley, of Simpsonville, makes the most celebrated plow now used, and its durability is deserved. We have seen it, and have seen certificates from old farmers who state that they never had a plow until they bought and used one of Brinley's make.

The difference between his and other plows is mainly that his mould-board is entirely of steel, which will in a very short time polish like silver; and it is set at just the proper angle to cut easily and yet with very little friction—that the beam is set so as to make the draught much easier than in other plows. It turns up a furrow of a certain size nearly and perfectly as it is possible to wish it done.

A farmer in this country, formerly a blacksmith and a maker of plows, bought two last fall. A few days since he was in this city and asked how I liked them. "Are you disappointed—don't they work to your satisfaction?" "I never had a plow before," was his reply.

We have also seen the certificates of experienced farmers from all parts of the State, and they all speak in the most favorable terms. One of them states that he worked them with 100 pounds less than the best iron Cincinnati. W. B. Belknap & Co., at the corner of Third and Main streets, are his agents in this city. We are sure our friends in the country cannot do better than to try them.

WORKERS ENTERPRISE.—We met on Saturday, Col. Latham, the efficient and energetic agent of the Cincinnati, Hamilton & Dayton Railroad, who is in the city with a view to making some arrangement, if possible, with the Jeffersonville Railroad Company, by means of which the time of travel from New York can be lessened nearly 20 hours. The Colonels object is to make arrangements so that the mail and passengers can leave Cincinnati immediately on arriving from Cleveland. Under present arrangements, we shall Wednesday evening next, at about 4 o'clock, receive New York papers of this morning, and will leave on Tuesday, at 10 o'clock punctually.

137 The steamship Empire will leave for New Orleans on Tuesday. The Fauna Bullion also will leave at the same hour.

The Farm, with Capt. Bunker aboard, will leave for Nashville on Tuesday. The Farm is one of the boats which we can recommend to the traveling public, and her captain is one of nature's noblemen.

The splendid packet Malvern, Capt. Hollister, will leave on Tuesday for Evansville and Henderson. His officers are perfect gentlemen, and among the most enterprising boatmen on the Western waters.

THE R. H. Winslow will be down this morning, leaves for N. O. to-morrow.

The Ishomino is the regular packet for Memphis, and will stop here for that port, at 3 o'clock, this afternoon.

BOAT RACE.—The boys about the river enjoyed themselves yesterday afternoon by racing their skiffs and row-boats. The river is clear of steamboats that wide field is left for all other kinds of water craft.

WE are under great obligations to Mr. Foster, the very attentive and gentlemanly clerk of the Thomas Swan, for late papers.

WAGHORN'S.—A drunken chap was sleeping soundly on the sunny side of a hogshead of tobacco, on Saturday afternoon, or what would have been the Sunday side, if the sky had not been clouded. Officer Royle thought he had better get up and go about his business before night, and so gave him a good sprinkling to wake him. He was convulsed with grief, and how soon was he completely sobered up again, and the scalding tears burned down his face in spite of his utmost effort. She was informed that she could go to Smithland on the Thos. Swan on Sunday, and from there find a pocket up the Cumberland. We have not, she burst into tears and told all affecting story. She had married six sons—two of them in Liverpool, the rest in different parts of this country. She had one child left, a daughter, who was in Nashville, and whose husband had just been dead.
